Subject: Petition to OPT-OUT for Digital Automated "Smart" Meters

Reference: Docket # [REDACTED], E-01345A-13-0069

2013 DEC 21 P 12: 29

Dear Sirs/Madams:

AZ CORP COMMISSION
DOCKET CONTROL

Whereas so-called digital automated "smart" meters have been shown to emit microwave radio frequencies and dirty electricity that has been shown hazardous to humans, pets, vegetation, and other life forms; to interfere with medical implants; to cause fires and damage to electronics and appliances; and to pose a risk to protection of personal, identifiable information by insufficient security, and

Whereas we the undersigned state that unwanted installation of such devices constitutes disregard for the health and safety of citizens of Arizona, as well as rights of property owners.

Now, therefore, this Petition is submitted to the Arizona Corporations Commission to declare our "OPT-OUT" intentions, forbidding the installation, activation and use of digital automated "smart" meters, as follows:

"We, the undersigned, in the interest of public health and safety, forbid, refuse and deny consent of any installation, activation and/or use of any monitoring, eavesdropping or surveillance devices on our private property, place of residence and place of occupancy. This objection applies to and includes any form or type of actively monitoring device, including digital automated "smart" meters. Any attempt to install, activate or use any such device directed at us as individuals, our property or residence will constitute trespass, stalking and unlawful surveillance, as well as endangerment to health and safety – all prohibited and punishable by law through criminal and civil complaints. All persons, government agencies and businesses responsible for such activities listed above, which I have not specifically authorized in writing, will be **fully liable** for any violations, intrusions, harm, or negative consequences caused by or made possible by such actions."

Further, we petition the Arizona Corporations Commission to disallow Arizona Public Services or any other utility permission to impose or collect any form of fee or fine for this OPT-OUT action related to digital automated "smart" meters and all smart grid (AMI) related infrastructures from all properties, commercial and residential, within Yavapai County, as collection of any such fee in association with this OPT-OUT since a fee would amount to extortion. Please allow citizens to keep and enjoy the use of their time-tested and trouble-free safe analog meters.

Sincerely,

Morris Van Dyke
